BEST BUYS FOR THE WEEK

In Torrance Markets

meats are comparable. If you are interested in "specials" you'll find they'll vary from market to market.

Broiler-Fryer prices are holding "steady" in price.

FRUITS AND VEGETABLES

Apples. Some fine quality apples are still available . . . and we're almost ready for the next crop. A method of storage in controlled atmosphere is one reason for this stretching of the apple season. This method virtually puts the apple to sleep in a gas tight storage-room in low temperature, reduced oxygen and increased carbon dioxide.

Cherries will be much better in quality by next week.

Grapefruit . . . lower prices on small sizes.

Strawberries are the best buy as weather conditions are conducive to more and better berries.

Watermelons from Mexico are very good.

Artichokes, Broccoli, Cabbage, String Beans, Lettuce, Potatoes and Romaine.

Corn from Coachella Valley. Springtime variety Peaches.

WHAT'S DOING

R. S. Pyle, your Telephone Manager in Torrance

When new lines go up, chances are you'll see telephone men working from trucks or poles with equipment like this. We call it a "cable-lasher" — it wraps the cable to a strong steel supporting strand. We used to do the job by hand, hooking rings around the strand then drawing the cable through them. The idea of a cable-lasher sounds simple enough, yet a lot of technical work went into making it a reality. It was well worth it though, because our cable-lasher saves us lots of time—and it's economies like this that help us give you more for your telephone dollar.

Missiles are slowpokes . . . compared to telephone service, that is. Figure it this way. An 18,000-mile-an-hour missile could fly from here to New York in about 10 minutes. But if you place a call to New York you're usually connected with the number in less than 30 seconds after dialing is completed! So even if men do someday speed about in missiles, it'll be a long time before you can beat the fastest way to visit folks far away . . . by long distance telephone.

THREE DAY HOLIDAY AHEAD

Coming up in less than three weeks is the annual celebration of Memorial Day, which falls this year on Monday (May 30) making a three-day weekend.

Originally set aside to honor the nation's heroes fallen in battle, Memorial Day was inaugurated shortly after the Civil War. (It still is not celebrated on May 30 in many Confederate states.)

Officially known as Decoration Day until a few years ago, its meaning has been extended to encompass a memorial for all loved ones.

It seems ironic that a day set aside to honor the dead has consistently added to its toll.

Scores will die on the highways and the carnage is expected to be even greater than usual this year due to the three-day vacation from work.

Take this advice from us at Pacific Telephone: drive carefully, and have an enjoyable holiday.
